

Restoration Games Support - Bug #478

DEMO mode in Custom Setting section doesn't work properly

08/20/2017 05:56 PM - Randy Dykstra

Status: Accepted	Estimated time: 0.00 hour
Priority: Normal	
Assignee: Jason Maltzen	
Category:	
Target version: Future Release	
Reported Version: 1.0.0	Stop Thief - Difficulty: N/A
Steps to Reproduce: 1. Run app 2. Choose "Stop Thief" game 3. Select Gear icon (settings) 4. Press [EDIT] or [CREATE] button to enter Custom Setting screen 5. Press [DEMO] button 6. Press the [>] (play) button to play a demo.	Expected Result: Expected: Event icon should be displayed on the current space and map pans to keep current space in center of view. Actual: Event icon stays in top-left corner of map and image keeps resetting to top-left corner of map.
Device Type: Android Phone	Resolved Version:
Device Model: LGLS770 (LG Stylo)	Resolved build number:
OS Version: Android 6.0	
Description The [DEMO] button on the Custom Settings screen opens up the map and provides the play/pause/back/forward control panel. However, this demo mode doesn't seem to work properly. The current event icon is always displayed in top left corner partially offscreen and never at the space of the event.

Interesting. We haven't seen this on other devices, so we'll need more information to track it down. Do you get the same incorrect behavior when using the replay feature after capturing a thief?
